Product Description

1000KG Medium Duty Warehouse Racking With Customizable Color Galvanized Pallet Rack For Efficient Storage

Product Description:

Medium duty racks are industrial shelving or storage systems designed to hold heavier loads than standard light duty racks, but not as heavy as those for industrial or heavy duty applications.

Medium duty racks can be freestanding or attached to walls, and are available in various heights, depths, and number of shelf levels.

Key considerations when selecting a medium duty rack include the weight, size, and number of items to be stored, available floor space, and accessibility requirements.

Required info for quote

- 1. The AUTOCAD drawing of warehouse or racking
- 2. Length, Height, and Width of the warehouse
- 3. Layers of the racking
- 4. Pallet size
- 5. Max weight of pallet with cargo on
- 6. Color requirement

Applications:

They are commonly used in warehouses, workshops, garages, and other commercial/industrial settings where more load capacity is needed compared to a typical home or office.

Parameters:

Parameter	Value
Shelf Brand	QiFei
Product Name	Medium-Duty Warehouse Shelf
Sizes(L*W*H)mm	1500*500*2000
Load Capacity	200KG
Number of Shelves	4 layers or customized
Upright Specification	40*80*0.7mm
