

Foldable Collapsible Heavy Duty Steel Galvanized Wire Mesh Container Customized

Our Product Introduction

for more products please visit us on warehouse-rackings.com

Basic Information

Product Specification

- Model NO.: QF-Wire Container
- Material: Steel
- Structure: Foldable
- Type: Cage
- Mobility: Mobile
- Height: 0-5m
- Weight: 100-1500
- Closed: Open
- Development: Conventional
- Serviceability: Common Use
- Color: Customized
- Lead Time: 20 Days
- Raw Material: Mild Steel
- Surface Treatment: Powder Coating
- Transport Package: Standard Export Packing

Product Description

Product Description

Wire mesh containers, also known as wire baskets or wire cages, are versatile storage and organization solutions made from woven metal wire.

The metal wire used is often galvanized steel or stainless steel, providing durability and corrosion resistance. The mesh openings can vary in size from small fine mesh to larger openings.

Wire mesh containers come in many different shapes, sizes, and configurations such as rectangular, square, round, or stackable. Common sizes range from small desktop organizers to large industrial-scale bins.

They are commonly used for storage, display, and transportation purposes in a variety of settings like warehouses, retail stores, workshops, kitchens, and homes.

Loading capacity (kg)	Size (mm)	Wire diameter (mm)	Weight (kg)
200	800*600*640	4.8	21
300	1000*800*840	4.8	28
400	800*600*640 / 1000*800*840	4.8/5.2	23
500	1000*800*840 / 1200*1000*890	4.8/5.2	35/36
600	800*600*640 / 1000*800*840	5.4/5.6	26/38
700	1200*1000*890	4.8/5.2	40/43
800	800*600*640 / 1000*800*840	5.6/5.8	28/41
900	1200*1000*890	5.6	47
1000	800*600*640 / 1000*800*840	5.8/6.0	30/44
1200	1000*800*840 / 1200*1000*890	5.6/6.0	45/54
1300	1200*1000*890	5.8	56
1500	1200*1000*890	6	60

Our Advantages

Excellent steel is welded by cold rolled hardening, with high strength and high loading capacity. Unified specifications, fixed capacity, storage of goods at a glance, easy to inventory inventory. Galvanized surface, beautiful and anti-oxidation, and long service life.

Adopt international standards, which can be used together with containers to effectively improve the utilization rate of space.

It can stack four layers with each other to achieve three-dimensional storage. It can stack four layers with each other to achieve three-dimensional storage.

Folding structure, with low recovery cost, is an alternative product of wooden packaging box.

Surface environmental protection treatment, sanitation and immunization, turnover, storage and recycling do not pollute the environment.

Wheels can be installed at the bottom, and the internal turnover of the factory is extremely convenient.

Efficient operation can be carried out with forklift truck, ground cow, lift machine, crane and other equipment.

Success Case

Company Profile
